PH- the 12/5/63 Detroit 100-31965 file on the boxcar, no HQ numbers visible the copy you sent, is the same as or similar to something about which I'm sure I either wrote you or sent you a copy. A local area worker came to see me some years ago with a piece of boxcar and a similar legend on it. I think he was unloading a car of cement when he found the piece of wood on which it was. I do not recall how I filed but I do have a clear recollection of the incident. HW 2/16/78
